

I have been a faithful K-Love listener for the past 10 years and a faithful supporter for the past 7 years. It is very sad to me to learn that my radio station could be forced off the air.

K-Love is like the air I breathe. I can live without it. I have listened to other radio stations for the past 20 years of my life and occasionally will listen now. None of these stations have the impact that K-Love has had on my life. K-Love promotes life-changing music that no other radio station does. It brings hope, love, joy, peace, change and satisfaction. No other radio station does that!!!!

This would effect our community in that there are so many people that also listen and support K-Love. There are so many families that listen to this radio station because it's positive music. Parents don't worry about their children having to listen to the garbage that's out there promoting sex, murder, swearing, disobedience, drugs, alcohol, selfishness, etc.

It's our only radio station in Arizona that we have. There are too many country, rock, jazz, spanish, heavymetal, top 40, talk radio stations already. That's fine to have a variety, however there are more than one of the radio station I've mentioned.

Another reason is that the people that listen to K-Love own the station because we support it financially on a monthly basis. This shouldn't affect you or anyone else for that matter.

I ask you to please reconsider and do not take K-Love off the air. You will kill so many people emotionally, spiritually, mentally and perhaps physically. There has been people on the verge of suicide that turned their nose to K-Love out of desperation and are now alive!

Thank you for your time.
